Of the Army Which in Crossing the Meuse Attempted to Effect With the Forces Fighting in Argonne—Optimism Prevails in France Where It is Pointed Out That There Are Still a Million Men in Reserve to Fight the Germans, Besides the Volunteers.

(ASSOCIATED PRESS TELEGRAM)  
Paris, Oct. 28.—The issue of the battle in Belgium was apparently still far from determination today. That the Germans had made up their minds to reach a decision in this part of the theatre of war was indicated by the report that their general staff has issued a further call for troops from Belgium and Germany for concentration in the vicinity of Dixmude, where some of the most severe fighting in the battle of Flanders has occurred.

The gain of the allies in the region to the south of Dixmude, as officially announced, showed that they are able, despite the heavy and continuous cannonading and the attacks of the German infantry to take the offensive against the German contingents which previously had succeeded in crossing the Yser. This news was received with much satisfaction by the public here as was also the announcement regarding the offensive movement by the French around Nancy.

As to the action in this vicinity the French recalled a recent remark by General Castelnau when, putting the public on its guard against possible bad news, he said: "We will perhaps receive a blow in the stomach, but we are sure to return it."

More to the west, in Woevre, the progress of the allies toward the route from St. Mihiel to Metz is, it is predicted, going soon to put in a different position the German forces which have tried, in crossing the Meuse, to work a junction with their forces fighting in Argonne.

Furthermore the advance of the French and English between Ypres and Roulers also gave ground for hope here. As to when the contest in the north would be finished there is no good guess.

French military men said, however, that the prolongation of the

battle gave no reason for losing patience. Discussing the possibility of an attack on Verdun, General Cherfies today declared that its defense was unlimited since it was equally attached to the allies army of Argonne. The enemy, he said, after testing the strength of Verdun, would gradually give up the hope of attempting to bring about its fall.

France, according to the general, still has more than a million men in reserve to give battle to the Germans to say nothing of the large number of good volunteers. These are so numerous in fact that many are being refused.

AUTO ACCIDENTS  
INJURE THIRTEEN  
PITTSBURGH MEN

(ASSOCIATED PRESS TELEGRAM)  
Pittsburgh, Oct. 28.—Thirteen men were taken to hospitals here early today as a result of two automobile accidents in which W. O. Stevenson, of Leechburg, Pa., and David Nichols, of Hites, Pa., were killed. The machine in which Stevenson and Nichols were riding collided with a street car, and a police patrol summoned to their assistance ran into a rapidly moving automobile when near the scene of the accident.

Among the injured were police Captain Robert Emmett and three policemen, all of whom were seriously hurt.

President Wilson's Proclamation  
For Thanksgiving, Refers to Peace In  
U. S., With Other Countries At War

(ASSOCIATED PRESS TELEGRAM)  
Washington, Oct. 28.—President Wilson today issued a proclamation designating Thursday, November 26 as Thanksgiving Day.

The President's proclamation refers to the fact that the United States is at peace while the rest of the world is at war. It follows in part:

"It has long been the honored custom of our people to turn in the fruitful autumn of the year in praise and thanksgiving to Almighty God for his many blessings and mercies to us as a nation. The year that is now drawing to a close since we last observed our day of Thanksgiving has been white a year of discipline because of the mighty forces of war and of change which have

disturbed the world, also a year of special blessing for us.

"It has been vouchsafed to us to remain at peace, with honor and in some part to succor the sufferings and supply the needs of those who are in want. Our people have looked upon their own life as a nation, with a deeper comprehension, a fuller realization of their responsibilities as well as of their blessings, and a keener sense of the moral and practical significance of the world may come to be.

"The fruitful effects of foreign war in their own industrial and commercial affairs, have made them feel the more fully and see the more clearly their mutual interdependence upon one another and has stirred them to a helpful co-operation such as they have seldom practiced before.

"Our crops will feed all who need

food; the self possession of our people amidst the most serious anxieties and difficulties, and the steadiness and resourcefulness of our business men will serve other nations as well as our own.

"The business of the country has been supplied with new instrumentalities and the commerce of the world with new channels of trade and intercourse. The Panama canal has been opened to the commerce of nations. The two continents of America have been bound in closer ties of friendship. New instrumentalities of international trade have been created which will be also new instrumentalities of acquaintance, intercourse, and mutual service. Never before have the people of the United States been so situated for their own advantage or the advantage of their neighbors or so equipped to serve themselves and mankind."

French Artillery, By Ruse,  
Drew Out German Reserves;  
Sprayed Them With Shrapnel

(ASSOCIATED PRESS TELEGRAM)  
Paris, Oct. 28.—This is how a portion of the German lines northeast of Ypres was taken yesterday, according to officers who have arrived in Paris from the battle line. A series of light guns, field batteries, each visible from the front, were dispersed behind the natural cover of undulations in the fields, ruined farm houses or dry ravines.

The guns working to their full capacity, of four shells to the minute, sprayed bursting projectiles over the Germans in a wide belt before, over and just behind the carefully dug and roofed field works that is the usual thing with the adversaries. The German infantry as long as they kept inside the covered trenches, were secure except from the chance of shells falling directly through the narrow space left for rifle and machine gun fire.

The French infantry, from the rear of their own lines of trenches, got up as if for the usual run for the German lines. The French guns at a moment agreed upon, ceased their

fire and the Germans, supposing the usual charging rush was coming, ordered up their reserve infantry, who were held outside of the shell zone, to support the slender lines in their trenches.

The French infantry although firing heavily did not charge. The French artillery changed their range and at a signal by telephone from the French trenches caught the German reserves coming on the run 1000 yards behind their works with a shattering shell fire which broke formation and seemed to bring down a third of the men in the line. They simply could not advance through the section of bursting shells.

"The French infantry then charged and won their way through the fire from the German trenches which they took with the bayonet.

The pushing of the Germans out of the establishing of French positions inside the German frontier is regarded as an important achievement at this juncture, proving that the allies

(ASSOCIATED PRESS TELEGRAM)  
Berlin, Oct. 28.—Austro-German official reports from the eastern theatre of the war indicate that several battles are raging along the Vistula and San rivers. The Germans apparently are engaging numerically superior forces of Russians.

The battles are attracting equal attention with the struggle in France and Belgium.

The bulletin issued last night by the Austrian war department states that the Austrians southwest of Lvov are combating Russian numerically superior Russian forces and further Russian corps, whose crossing of the Vistula north of Lvov has been mentioned in the

BOMBARDMENT OF COASTS

Germany's Supreme Effort is in Flanders, While the Allies Have Made Progress at Other Points That Have Been Weakened By Withdrawal of Troops to Send to That Area—Greece and Italy Showing Unrest as to Their Position in Albania.

(ASSOCIATED PRESS TELEGRAM)  
London, Oct. 28.—The "bloody massacre," as it is described by those on the spot, among the sand dunes and canals of Flanders, shows as yet but few signs of slackening. The valor of the German attack has been persistently countered by equal valor from the steady ranks before them. Apparently no quarter is being asked or given in this battle on the western front and the land over which it is being waged resembles a shambles.

Seven times altogether, the Germans have crossed and recrossed the Yser. Each time they succeeded in gaining the left bank they found themselves in a death trap commanded by the guns of the defenders, entrenched behind the railroad embankment running more or less parallel to the Yser and completely barring their progress. Some German forces, according to the latest reports in London, succeeded in finding shelter enough among the sand hillocks to enable them to retain a footing between the Yser and the railroad running from Dixmude to Nieuport, but this number up to the present time has been insufficient to dislodge the enemy.

The German reinforcements are still rolling up and the effort to break through the line shows no sign of cessation. Nor is it expected that they will until the exhausted masses of men reach the limit of their endurance.

It is impossible for observers in London to deduce from the German official communications the German opinion of events in this area of the war. From the point of view of the allies the French announcements of continued progress between Ypres and Dixmude are considered very satisfactory as foreshadowing a possible threatening of the rear of the German forces nearest the coast.

Another piece of favorable news, from the standpoint of the allies, comes from the Argonne and the region of the barrier fortresses. This reports French penetration of territory hitherto held by the invaders and is taken to indicate the possibility that the German left has been so weakened to support the operations on the coast, that the French right wing has been afforded an opening for a profitable offensive movement which may have an echo on the seaboard.

The opinion is expressed widely by British military observers that the present clash of tactics cannot, as was the case in a number of previous battles of the campaign, fade away into another phase without some result which will thwart, or give marked success to one side or the other.

If the Germans are sending fresh masses of men to the fighting some, the allies probably are equaling their opponents numerically with reinforcements. There are still many thousands of French and British troops who have not yet been in action, although the latter are on this side of the channel.

The Belgian government has been stirred to greater activity by the report that here are large numbers of young and physically able Belgians enjoying life in England, when their proper place, it is contended, is in the ranks of their own army. A call has been issued by the Belgian government summoning all efficients between the ages of 18 and 30 to enlist for the duration of the war, and announcing that after November 15, all belated recruits are to be automatically drafted.

Simultaneously, it is declared here, the British government has requested for its recent action forbidding the capture of reservists of the enemy on neutral vessels, and has withdrawn this order.

The public welcomes this change of front as it is opposed to giving facilities to the flood of German and Austrian reservists to join their colors, and thus neutralize the fresh troops from the standpoint of the allies.

Bugles Played as Germans  
Dashed On British Trench  
To be Mowed Down by Scores

(ASSOCIATED PRESS TELEGRAM)  
London, Oct. 28.—The correspondent of the Times in northern France sends the following regarding the fighting in Belgium under Tuesday's date:

"The British fire at Ypres after a glorious stand for five days against overwhelming odds, drove the enemy back 15 miles.

"The German forces were commanded by the Bavarian crown prince, who, it is reported, has been wounded.

"The British forces captured Langemark, five miles northeast of Ypres on Friday, after inflicting enormous losses on the enemy and established entrenched positions beyond the village.

"At night after the roar of the cannon ceased, there was suddenly a shrill whistle and bushes soaked in petroleum broke into flames, throwing a glare over the scene. Masses of men sprang up from the beet crops within a few hundred yards of our trenches and with bugle sound, yell and song, they came forward to our position.

"Though taken by surprise, our

brave men were not unprepared. They took their places in the trenches and held them, pouring a terrific fire into the advancing hosts.

"Answering with rifle and machine guns the enemy advanced, still with the bugle playing and amid shouts of 'Hoch! Hoch!' They were in dense masses and they fell by the hundreds. They got within thirty yards of the trenches when they recoiled.

"Then came three blasts of a whistle, sounding the retreat. Our men sprang out of the trenches and went to among them with the bayonet. The slaughter was terrible and there were many hands to hand encounters.

"In the dim glare of the blazing bushes some of the enemy threw down their arms and pleaded for mercy. No quarter, however, was given on either side. The work was too desperate for that. Bayonet and bullet did their work and the enemy was driven back on Roosbeke.

"A battery and several machine guns were captured and thousands of prisoners were taken, including a general and several other officers."

### EPILEPSY CURE BY OPERATION ON INTESTINES

Demonstrated in Many Cases, According to Announcement to Medical Association.

(Associated Press Telegram)  
Cincinnati, O., Oct. 28.—That a cure for epilepsy through a surgical operation on the intestines has been demonstrated in many cases was announced at the meeting of the Mississippi Valley Medical Association here today by Charles A. L. Reed, of this city, who first described his new method of curing the disease several months ago. Animated discussion followed the reading of Dr. Reed's paper and much interest was evidenced by the physicians and surgeons attending the convention.

Dr. Reed held that the majority of cases of epilepsy are caused by poisons absorbed by the human system from the intestines. All previous surgical practice has been to operate on the brain.

Many other papers were read during the day giving results of hygienic investigations in the Mississippi valley during the past year.

### GIRL WAS SCARED, BUT NO EVIDENCE OF POISON NEEDLE

Angeline Andrews, 14, daughter of Mrs. W. H. Andrews, 47 Deway avenue, was seized by the arm by a young man while she was on her way to school at the East Main Street building Tuesday morning and a scratch left on her arm led her relatives to believe that an effort had been made to use a "poison needle" on the girl. Other than being frightened by the man's actions, the girl suffered no ill effects and was in school as usual Tuesday afternoon.

Little credence is placed in the "needle" the cry by authorities as extensive investigations conducted by criminologists and medical men during the epidemic of these stories in the east resulted in the unanimous verdict that there was no occasion for panic, that there was no known drug that would take effect instantly as would be necessary when used for such purposes.

Miss Andrews is a daughter of W. H. Andrews who met death a few weeks ago at the Everett stone quarry when a blasting charge exploded prematurely.

### GALESBURG, ILL., FATHER'S CRIME HORRIBLE ONE

(Associated Press Telegram)  
Galesburg, Ill., Oct. 28.—W. W. Stromberg today shot and killed his three children and wounded himself and his wife. Mrs. Stromberg's hand was shot off.

Stromberg, who is a proprietor of one of the largest confectionary stores here, died shortly after wounding himself.

Neighbors early today heard Stromberg and his wife quarrelling. Stromberg it was learned later then left the house, procured an automatic shotgun and returned. He levelled the weapon at his wife but she grasped it and the discharge carried away her hand. Her condition is serious. The infuriated man then turned the gun on his children who were killed instantly and then shot himself.

Stromberg was 47 years old. The slain children were: Joyce, 19; Ralph, 14, and Lowell, 10.

### SOUTH AFRICAN

(Continued from Page 1.)  
the allies are able to send into the field.

The battle which all the world is watching still sways back and forth in the little district of west Flanders, where the allied forces are struggling to check the German advance to Calais, but ripples of war news are noted in widely separated points.

First comes the new rebellion in South Africa, where the Boer leaders, Christian DeWet and General Beyers, former commander of the military forces of the union of South Africa, have taken the field against the union government on the heels of the checking of the rebellious movement under Colonel Maritz.

General DeWet was the famous antagonist of Lord Kitchener during the Boer war and the uprising he is now leading is treated by the British press as far more serious than the Maritz outbreak.

An event perhaps second in potential importance is the reported German invasion of Angola, the Portuguese colony in West Africa. Whether this report is true or not, the dispatch comes almost coincidental with the announcement that Manuel, former king of Portugal, has offered his services to King George and is willing to take the field against Germany with the army of the Portuguese Republic. According to a report Manuel was recently in Portugal.

Thirdly, the unrest in Albania seems to be growing. Not only have both Italy and Greece announced their intention of protecting their interests in this territory by force of arms, but the Turks are said to be active in a campaign to send troops and proclaim Albania a part of the Ottoman Empire, aside from these political outcroppings, the great war, England received a shock in the news that a steamer, the Manchester, Commerce, had been sunk off the coast of Ireland by a German mine. Up to the present time all such disasters have been confined to the eastern coast. The region where this vessel was struck is on the direct route of the great Atlantic liners from Liverpool and of the Clyde line steamers from New York and Canadian ports. The inference is that the Germans, by penetrating this area, hoped to reach the transports bearing Canadian troops to the British Isles.

Of the battle on the Vser, London has heard little news this morning. The German rush to reach the French coast would appear for the time being held in check, but the fiercest fighting continues with the German delivering harder blows on the line between Dixmude and Ypres, following their failure to make progress between Dixmude and the coast. British naval guns, it is said, have resumed their bombardment along the coast and colossal German losses are reported. The Belgians, London newspapers admit, have suffered terribly but of the losses of the French and English no mention is made.

While the Germans are making their supreme effort in Flanders, the allies have been quick to press the advantages offered at other points on the line by the removal of German troops to the German right wing. This probably accounts for the progress claimed by the allies near Soissons, at Berry Anzac, in the center and to the east of Nancy, where the Germans, according to the French official announcement have driven across the frontier. From all these points, it is understood, the Germans took men and things into Belgium. The crown prince of Bavaria is said now to be in command of the German forces on the Vser and it is reported that he has been wounded.

The weather promises soon to play an important part in the campaign in the eastern arena of the war. The enormous Russian winter is said to be about to have an effect on Moscow and Warsaw and snow covers the ground near Minsk. The Russians aver that they are following up on their successes and skillfully the number of the Germans from Warsaw. Their cavalry is pushing rapidly westward from Lodz, which has been occupied by them and threatening the German line of communication. The Germans, it is further contended, are having difficulty in maintaining their rearward defensive lines around Radom, to the north of Warsaw.

### SOUTH AFRICAN

(Continued from Page 1.)  
the allies are able to send into the field.

The battle which all the world is watching still sways back and forth in the little district of west Flanders, where the allied forces are struggling to check the German advance to Calais, but ripples of war news are noted in widely separated points.

First comes the new rebellion in South Africa, where the Boer leaders, Christian DeWet and General Beyers, former commander of the military forces of the union of South Africa, have taken the field against the union government on the heels of the checking of the rebellious movement under Colonel Maritz.

General DeWet was the famous antagonist of Lord Kitchener during the Boer war and the uprising he is now leading is treated by the British press as far more serious than the Maritz outbreak.

An event perhaps second in potential importance is the reported German invasion of Angola, the Portuguese colony in West Africa. Whether this report is true or not, the dispatch comes almost coincidental with the announcement that Manuel, former king of Portugal, has offered his services to King George and is willing to take the field against Germany with the army of the Portuguese Republic. According to a report Manuel was recently in Portugal.

Thirdly, the unrest in Albania seems to be growing. Not only have both Italy and Greece announced their intention of protecting their interests in this territory by force of arms, but the Turks are said to be active in a campaign to send troops and proclaim Albania a part of the Ottoman Empire, aside from these political outcroppings, the great war, England received a shock in the news that a steamer, the Manchester, Commerce, had been sunk off the coast of Ireland by a German mine. Up to the present time all such disasters have been confined to the eastern coast. The region where this vessel was struck is on the direct route of the great Atlantic liners from Liverpool and of the Clyde line steamers from New York and Canadian ports. The inference is that the Germans, by penetrating this area, hoped to reach the transports bearing Canadian troops to the British Isles.

Of the battle on the Vser, London has heard little news this morning. The German rush to reach the French coast would appear for the time being held in check, but the fiercest fighting continues with the German delivering harder blows on the line between Dixmude and Ypres, following their failure to make progress between Dixmude and the coast. British naval guns, it is said, have resumed their bombardment along the coast and colossal German losses are reported. The Belgians, London newspapers admit, have suffered terribly but of the losses of the French and English no mention is made.

While the Germans are making their supreme effort in Flanders, the allies have been quick to press the advantages offered at other points on the line by the removal of German troops to the German right wing. This probably accounts for the progress claimed by the allies near Soissons, at Berry Anzac, in the center and to the east of Nancy, where the Germans, according to the French official announcement have driven across the frontier. From all these points, it is understood, the Germans took men and things into Belgium. The crown prince of Bavaria is said now to be in command of the German forces on the Vser and it is reported that he has been wounded.

The weather promises soon to play an important part in the campaign in the eastern arena of the war. The enormous Russian winter is said to be about to have an effect on Moscow and Warsaw and snow covers the ground near Minsk. The Russians aver that they are following up on their successes and skillfully the number of the Germans from Warsaw. Their cavalry is pushing rapidly westward from Lodz, which has been occupied by them and threatening the German line of communication. The Germans, it is further contended, are having difficulty in maintaining their rearward defensive lines around Radom, to the north of Warsaw.

### HERRICK WANTS HIS WINTER CLOTHES

(Associated Press Telegram)  
Columbus, Oct. 28.—That Ambassador Myron T. Herrick will not return to America soon was indicated today when it was learned that he has sent to Cleveland for his winter clothes. The note requesting his clothing, it was said, made no mention of when he expected to return to America.

United States in the first quarter of 1914 imported 21,000,000 yards of Egyptian cotton cloth.

## Reply To Good Government League

To Wesley Montgomery and Robert W. Howard, President and Secretary, respectively of the Good Government League of Licking County, Ohio:

In a recent communication styled, "Reply to Challenge," to debate the Prohibition and Home Rule amendments, without either accepting or rejecting said challenge, you "take the opportunity of saying," that the first resolution in said challenge proposed for debate, to-wit: That the prohibition of the manufacture and use of intoxicating beverages is wrong in principle, un-Christian in character and powerless as a remedy for intemperance is not an issue; that the amendment referred to has only to do with "the sale or giving away of liquor."

Such a reply bears on its face the imprint of evasion, insincerity and subterfuge.

It is apparent to any reasonable man that there can be no "sale or giving away of liquor," without the manufacture and use thereof.

Construed in any light, the general challenge was in language that could not be misunderstood. It was as follows: "WE HEREBY CHALLENGE YOU TO OPEN ONE OF THESE SAME CHURCHES TO A PUBLIC DISCUSSION OF BOTH SIDES OF THE PROHIBITION AND HOME RULE QUESTIONS." The resolution referred to was intended and suggested as one that would admit of a discussion of all the phases of this question and we inquire, why prohibitionists last of all people, could or should consistently complain or hesitate to arguing the question of the manufacture or use of intoxicating liquors?

You also say you desire to know with whom you "are doing business."

Could you honestly say that you did not understand that those people, who are opposed to prohibition, had challenged its advocates to a debate thereon, specifying the name of their speaker?

If you understood this proposition why not reply frankly rejecting or accepting this challenge?

The name of the speaker you were to debate with was given and, as intelligent men, you could hardly mistake this as a proposition for an open, public discussion of both sides of these questions and such a proposition, we think, can hardly be disposed of by merely replying that you do not know the names of the committee who printed the challenge.

That there be no further opportunity of evasion on this matter, on this account, the undersigned have been appointed a committee to represent the Personal Liberty League in this matter and have signed their names hereto.

Moreover, we telephoned Mr. R. W. Howard, whose name appears on your communication as secretary, informing him who this committee consisted of and requested a meeting for Tuesday evening, October 27th to arrange for said debate. Mr. Howard informed us he would talk to Mr. Wesley Montgomery, who signed said statement as president, and that they would take up the proposition with us. Later he telephoned us that it would be impossible for Mr. Montgomery to meet us Tuesday night and that he would call us by telephone Wednesday morning. Mr. Howard having failed to notify us and said reply to our challenge having been made public we are making this public statement.

You are either willing to debate this question publicly in one of your churches according to our challenge and thus to have both sides presented to the people from the same platform or you are not willing to do so.

The challenge to there publicly debate the question of Prohibition and Home Rule still stands.

**YOU ARE REQUESTED TO FAIRLY ACCEPT OR REJECT THIS CHALLENGE.**

Yours truly,

## PULLMAN ROLLS DOWN HIGH BANK; EIGHTEEN HURT

(Associated Press Telegram)  
Huntington, W. Va., Oct. 28.—Eighteen persons were injured, five of them seriously, when three Pullmans and a day coach of Chesapeake and Ohio, Washington-Chicago fast train No. 1, was derailed this morning at 7 o'clock, ten miles east of Huntington. Two of the Pullmans turned completely over, rolling down a high embankment. A broken wheel on the day coach is believed to have caused the accident.

All the injured were in the overturned Pullmans. The day coach did not turn over. The injured were brought to Huntington, where they are now in hospitals.

J. C. Carter, Huntington, fatally hurt, and Mrs. J. M. Spady Huntington, seriously injured, have been identified.

Following are the more seriously injured in the wreck:  
J. H. Blackwood, 637 Sixth street, Huntington; three broken ribs, cut hand; not serious.  
E. T. Morris, Roanoke, Va.; bruised head, cut in shoulder.  
C. A. Cress, 325 Blackford street, Indianapolis, Ind.; cut in back and bruised hip and hand.  
B. T. Turner, Woodstock, Ill.; broken nose, several flesh wounds.  
D. L. Edwards, Pullman conductor, Richmond, Va.; scalp wound and bruises; Conductor C. E. Schweickert, cut on wrist and about hands, bruised about body and shoulder; J. C. Carter, Huntington, W. Va., depressed fractured skull; D. R. Ways, Pullman porter, 419 S. street N. W., Washington, scalp wound, back hurt; Miss Hattie Graber, Lumberton, N. C., injured about hip; Emma M. Clark, Chicago, bruised about body; Mrs. John Spady, Huntington, several cuts about face and shoulder blade, fractured Mrs. G. H. Rush, LaGrande, Ore., knee and arm slightly sprained; child has collar bone broken.

## RECORD PRICE FOR CATTLE PAID AT THE STOCK YARDS

Chicago, Oct. 28.—Range cattle "off the grass" that is, cattle that never have eaten grain, were sold for \$175.20 a head at the Union Stock Yards yesterday, a record price for the Chicago market.

"It is easy to understand why beef is high when cattle bring such prices as this," said Melville E. Horan, statistician of the Union Stock Yards.

"One dealer from Montana sold 12 choice grass fed steers averaging 1,572 pounds each for \$10 a hundred, or \$157.20 a head. The prices received for his stock ranged from \$8.25 to \$10 a hundred pounds, except heifers at \$7.85 and a few poor heifers at \$7.50. His entire consignment of 220 head of cattle brought \$11,000, or an average of \$110 a head, and not one of them ever tasted grain."

## CRAZED ATTORNEY ATTEMPTS LIFE OF OHIO BANKER

(Associated Press Telegram)  
Stonewall, O., Oct. 28.—D. J. Sinclair, a prominent banker of this city, was shot twice and seriously wounded early today in his private banking room by Charles Gilmore, an attorney, who then fired a bullet into his own brain, dying instantly. It is believed Gilmore's mind was unbalanced.

Gilmore has for years imagined that Sinclair owed him money for the care of an uncle, H. C. Garrett, in his declining years. He frequently demanded money from Sinclair, but the latter always refused to give him any. Today Sinclair admitted Gilmore to his office to effect a private settlement, and the shooting followed.

## Head Stopped Up? Can't Breathe? Try the New External Treatment

Applied in Salve Form Over Throat and Chest Relieves by Inhalation and Absorption.

Vapor treatments are best for all inflammation of the air passages. The vapors carry the medication direct to the inflamed surface without disturbing the stomach as do internal medicines. A cheap and very convenient vapor treatment is a good application of Vick's "Vap-O-Rub" Croup and Pneumonia Salve over the throat and chest, covered with a warm flannel cloth. The vapor heat releases vapors of Thymol, Eucalyptol, Menthol, Camphor, and Pine Tar, that are inhaled with every breath, through the air passages to the lungs. These vapors open the air passages, loosen the phlegm, and heal the raw surfaces. If the cold is in the chest, apply hot wet towels to open the pores. Vick's is then absorbed through the skin, taking out that tightness and soreness.

A little Vick's applied up the nostrils and over the temples is very beneficial for head colds and catarrh and will relieve most cases of headache and neuralgia. Vick's is also excellent for Asthma, Hay Fever, and Bronchial troubles. Three sizes, at all dealers—25c, 50c, and \$1.00.

# CRIME

OF HARLEY BEARD MUST BE  
EXPLAINED BY HIM IN  
ELECTRIC CHAIR

Youthful Triple Murderer of Lawrence County Refused Clemency by Pardon Board.

(ASSOCIATED PRESS TELEGRAMS)  
Columbus, Oct. 28.—Harley Beard, 19 year old Lawrence county boy, probably will die in the electric chair December 4 for the murder of three members of the Massie family near Ironton last spring. The state board of pardons today refused to recommend pardon or commutation of sentence for him and it was said that the governor's office that Governor Cox would not interfere with the carrying out of the death sentence.

Beard was first sentenced to be executed October 2, but Governor Cox granted him a respite until the latter date to allow the pardon board to investigate his case and determine whether he was insane. Several alienists examined him and reported to the pardon board they believed him sane.

Young Beard was a hired hand on the Massie farm near Ironton. He quarrelled with his employer, and killed an aged woman in the family, the daughter and the young woman's brother, with an axe. Their dead bodies were not found for several days. Beard escaped and went to the home of his sister in Chicago, where he was arrested. He later confessed the crime.

Wesley Jenkins, colored, of Dayton, also is awaiting execution December 4 for the murder of his sweetheart. He and Beard have been cellmates in the death house at the penitentiary. Jenkins was given a respite from October 2 and the Supreme court since then refused to order a new trial asked by him on the ground that the jury which found him guilty was composed entirely of white men, and therefore were not his "peers." He maintained he was entitled to a trial by a jury of colored men.

## Spirit of the Press

Business.  
According to The Press, before a Democratic Administration came into power "there was prosperity on every hand. Confidence was supreme, and its cornerstone was the sound economic principle of protection." Well, well! Is the Roosevelt panic of 1907 so soon forgotten? That was followed by the gloomy days of 1908, with a flickering revival of it in 1909, and then the business uncertainty and depression of 1910 and 1911 that led to overwhelming Democratic victories. Business was better in 1912 largely because of the faith of the American people in Woodrow Wilson as a conservative force if he should be elected President. Why do Republican papers insult popular intelligence by printing such twaddle?—Philadelphia Record

## Ten Governors of New Federal Reserve Banks.

Back row, left to right: Charles J. Rhoads, Philadelphia, district No. 3; Oscar Wells, Houston, Tex., district No. 11; Alfred L. Aiken, Boston, district No. 1; Benjamin Strong, Jr., New York, district No. 2; Archibald Kahn, San Francisco, district No. 12.

Front row, left to right: D. R. Faucher, Cleveland, district No. 4; George J. Soay, Richmond, district No. 5; Joseph A. McCord, Atlanta, district No. 6; Theodore Weld, Minneapolis, district No. 9; Charles M. Sawyer, Topeka, district No. 10.

This photograph of ten of the twelve governors of the Federal Reserve banks, which will begin business Nov. 16, according to the order issued by Secretary of the Treasury William McAdoo, was taken in Washington.

Washington, Oct. 28.—Federal reserve board officials today awaited approval from clearing house associations of the plan for a \$135,000,000 loan fund to finance the surplus cotton crop. Details of the plan had been completed, and board officials hoped it would find enough banking support to insure its adoption.

The plan contemplated administration of the fund under the direction of a committee consisting of individual members of the board, but the actual administration would be under a "Cotton Loan Committee" of which W. P. G. Harding, a board member would be chairman.

It is planned to raise \$100,000,000 of the fund in non-cotton growing states and the remainder in cotton territory. The loan rate would be six per cent. with warehouse receipts as collateral on the basis of six cents a pound for middling cotton.

## Official Argument in Favor of the Tax Limit Amendment.

The proposal to amend the constitution to limit the tax rate and permit classification of property will have second place on the ballot at the Nov. 3d election.

The secretary of state has mailed to every voter an argument for and against each proposed constitutional amendment. There will be four propositions placed before the voters. Besides the tax amendment electors will be asked to pass on an amendment providing for home rule in regulating the liquor traffic, extending suffrage to women and state prohibition.

The argument in favor of the tax limit amendment was prepared and filed by a committee consisting of Daniel J. Ryan, L. M. Kreplever, J. H. Hann, T. P. Linn and O. K. Shimansky. The argument is as follows:

The tax levy in every taxing district in Ohio will never be in excess of 10 mills on every \$100 of valuation, exclusive of sinking fund and interest charges, unless increased by a vote of the people themselves at a regular or general election. If the tax rate in any taxing district is now less than 10 mills that lower rate must prevail unless the people themselves vote to increase it at a regular or general election.

The effect of this limitation on the rate of taxation makes for economy and business management on the part of the officials who expend the money derived from taxing the property of the people, and guarantees to farm and home owners, business men and all others who make legitimate investment of the earnings of their labor or ingenuity, absolute and continuing protection against the incompetency or wastefulness of those who disburse the tax money as well as preventing spendthrift legislative acts.

Under this proposal property for taxation purposes is divided into three classes, viz., real estate, tangible personal property and intangible personal property. The general assembly may fix a different rate of taxation for each of these classes, but the rate on all property within each class must be the same.

Under this proposal the general assembly may exempt mortgages from taxation, thus giving the legislature power to relieve the taxpayer of one form of double taxation.

(Cincinnati Enquirer.)  
Every day that passes proves that Science is wrong when it holds that man cannot live without brains.

We all know that if other men were as good as we are, this would be a Grand World.

She works hard to make a husband out of her lover, but she doesn't bother much about making a lover out of her husband.

Some men won't yield to anything but temptation.

A bride takes great pains with her first batch of biscuits. And a little later her husband takes greater pains.

You can't blame a woman for being distant to a husband who is close.

The poorer a man is the more he will brag about his rich relatives.

The Hi Cost of Living seems to have put a crimp into the man who used to keep two flats on one salary.

There wouldn't be much trouble in this world if you could only convince men that all women are alike.

An article in a current magazine contending that the masculine form is more beautiful than the feminine sort of jarred us until we found that the article was written by a woman.

The woman who has to carry a gun to keep men from flirting with her is usually that kind of a woman.

An Eastern paper refers to him as "Taddy" Roosevelt. Better kick in with your six cents damages and avoid a windy trial.

A man can go to the devil and get back. But a woman can't buy a return ticket.

## Readers' View Point

The Advocate assumes no responsibility for the opinions expressed in the column headed "Readers' View-point." Communications from our readers should be short, plainly written and should be signed though the signature will not be printed. It is so requested. These communications should be upon subjects in which there is general interest, and they must be free from abuse or extravagant statements that tend to provoke controversy.

## LETTER TO THE EDITOR.

To the Editor:  
In reply to the discussion of the taxation amendment in your column, permit us to set forth, briefly, what the proposed taxation amendment does. It merely says:  
"The power to levy taxes above the present rates is taken from the hands of the officials who spend the taxes, and is placed in the hands of the people who pay the taxes."  
"The tax rate on any class of property for all general purposes never exceed 10 mills unless the people, by a majority vote, authorize an increase for a specific purpose."  
"Property is divided into three classes—real estate, tangible personal and intangible personal. The legislature is authorized to fix the rates inside the 10 mill limitation. The rate on any class of property can not be more than 10 mills, plus interest and sinking fund charges on bonded indebtedness, which must be met in any event."  
"The legislature may exempt mortgages from taxation, thus abolishing one form of double taxation."  
There can be no real objection to the provisions of the amendment. The people surely are competent to pass on tax matters as well as on other public affairs. Very truly yours,  
Daniel J. Ryan, J. H. Hann, T. P. Linn, L. M. Kreplever, O. K. Shimansky, committee on education.

**Warnes Law Reduces Taxes**

A resident of Newark township, Grantville township, Hopewell township, Franklin or Licking township who failed to read the third column of page ten of Tuesday's Advocate should by all means make it a point to see that paper before next Tuesday.

The article referred to showed exactly what saving in cash, real money, will come to George W. Crawford, Thomas Dunaway, John C. Fisher, F. M. and M. A. Dushheimer, Joseph C. Smith, Sarah E. Cooper, rider, William Hollar and Harry N. Wright, because of the enactment of the Warnes tax law. And it should be noted that these names were taken at random from the court house records and that this saving in money applies to every other taxpayer living in the same taxing district as those whose names are given.

In another column of this edition other names taken from five other townships are given, showing just what these taxpayers will save.

There has been much misrepresentation of the facts connected with the Warnes law. The American Tribune while admitting that the tax rate has been lowered in 68 of the 78 taxing districts of this county tries to fool the people into believing that after all this reduction in tax rate really cuts no figure. The answer to the Tribune's foolish assertion is the tax figures themselves. Any taxpayer can inquire of the County Treasurer or Auditor and can now learn what tax he paid last June and what he will pay in December and next June. Not everybody will pay less than he did last June but if he pays more it is because he has more property and therefore can afford to pay more.

Of the four million dollars increase in the duplicate only a very small fraction came from real estate (due to new buildings) while the great bulk of the increase came from money stocks, bonds etc.—intangible property that has heretofore escaped taxation.

The farmers whose property has

**Bert O. Horton for Clerk**

To the Voters of Licking County:  
In behalf of Mr. Bert O. Horton, candidate for the position of clerk of courts for a second term, we the undersigned attorneys of Licking county, desire to say that we have found him to be very efficient. As is well known, the position of clerk of the courts is a difficult one to fill, and such experience as Mr. Horton has had during his first term tends specially to qualify him for a second term. In addition to this experience, he possesses peculiar qualifications such as naturally attend the work, viz: He is active, honest and courteous in his intercourse with men, and has a proper conception of the duties of the office. Having come in contact in a business way from time to time with the various dockets, journals and books of record of the court, we find them to be kept in a systematic manner, and the administration of public affairs in his

**Ask Newark Workingmen**

Ask any one of the Newark workingmen who has seen the practical operation of the Workmen's Compulsory Compensation law what he thinks of it. Every man who employs five or more people must contribute to the state fund and out of this fund injured workmen are paid and the families of men who are killed while on duty are paid by the state. Who would repeal this law? If Governor Cox had nothing else to his credit, the Workmen's Compensation law should be enough to re-elect him by a great majority. The men of the Wehrle foundry, the Jewett Car Works, the American Battle Plant and other industries of Newark appreciate the value of the Compensation law and they know that the credit for its enactment rests with the James M. Cox administration. The workingmen of Newark will show their appreciation of this excellent law by voting for Governor Cox next Tuesday.

**A House Divided, Etc.**

For the first time in decades the Republican Congressional Committee this year issued no hand book for the guidance of speakers and editors. There is a reason. The members of the Congressional Committee could not agree among themselves upon what material should be placed in the document. Many Republican Congressmen, scores in fact, voted for Democratic measures which certain leaders wished to have denounced. Denunciation meant to these members stultification in the eyes of their approving constituents. To insure peace and to prevent themselves from seeming foolish the members of the committee decided to issue no handbook. Each Congressional candidate is therefore free to make his own issues. The light, therefore, is that of an undisciplined mob against the trained and loyal army headed by President

Woodrow Wilson. Here in Ohio these conditions are duplicated. Willis—Citizen Willis, if you please—is for prohibition and Harding—Candidate Harding, mark you—is not. The platform declares for many things which Willis, as a citizen opposes, but which as a candidate he supports.

Granted that the Workmen's Compensation law does cost something; admitted that the payment of Mothers' pensions, help to the blind, aid to those suffering from tuberculosis comes from the taxpayers, isn't it a fine thing that Licking county can pay her share to support these splendid humanitarian measures and at the same time enjoy a lower tax rate? The standpatters make a mistake in attacking measures that are dear to the heart of the people. Yes, to support the men and the party that enacted these laws. You will find the names in Attorney General's office. Mr. McGhee is in the prime of life being 42 years of age. He is a prominent

**WHAT ABOUT THAT, YOUNG MAN?**

**Keep the Door Latched**

Hold fast to this fact. In the past fiscal year there was received as interest on the State Treasury funds, \$241,000. This tremendous sum will pay the salaries and expenses of the executive and judicial department and a large part of the expenses of the General Assembly. Before Democratic administration scoured out the grafters, this money went into the pocket of crooked officials and their allies. The funds, instead of being ostensibly in the big vault in the Treasurer's office, are now scattered among the banks of Ohio and are helping to carry the burdens of commerce and trade. The bank that bids the highest rate of interest gets the most money and keeps it the longest. The bidding is open and above board and the proposals are published in the daily papers. Less than \$10,000 of the many millions is kept in cash for emergency purposes by State Treasurer John P. Brennan.

In his recent address to the Democratic and independent voters of Ohio, former Governor Judson Harmon, called specific attention to the necessity for vigilance in keeping out of the Capitol the Treasury looters who fled before his cat-o-nine tails. His experienced eye promptly detected the masked effort of the old crowd to return to their former fields of exploitation. The cry of extravagance is but a ruse. What scarifies them is the thought of losing the \$1,250,000 in money which the State has received for interest under the administration of Harmon and Cox. Employed at Republican State headquarters are associates of former State Treasurer Isaac B. Cameron, whom Congressman Frank Willis voted to whitewash and who stands waiting a long deferred and desperately fought trial for embezzlement. Paste these facts in your hat and look into it when you go to vote on election day.

**Uncle Walt**

**SHOOT THE BRUTE.**

Oh, but the rat and slice the milk and make this country clean and nice! From every house where people dwell, let's drive the rodents forth, pell-mell; in every store and every shop, let's chase the pests and never stop, until the spangled banner waves above ten billion rodents' graves. The rats consume the farmer's oats, and gnaw the whiskers off his goats, and rob him yearly of a sum, which, figured up, would strike him dumb. The rats destroy the grocer's cheese, his early prunes and seedless peas, and do such damage in his store the sheriff comes to close his door. They spoil the housewife's cherished flour, and make her sunny temper sour, and so she jaws around, of course, until her husband gets divorce. The rat's a nuisance, without end, and there is no one to defend the noxious critter, foul and vile, the world's most hated animal. Let us with pitfall and with gin beset the path he wanders in. Let us go forth with bombs and guns, explore his alleys and his runs, and slay him as St. George of old laid out the dragon, fierce and bold. This world will be a better place when every tribe and every race of filthy things which crawl or fly, curl up their legs or wings and die. So on their heads we've set a price; go, but the rats and slice the milk!

**Joseph McGhee.**

Joseph McGhee, the Democratic candidate for Attorney General of Ohio was in town yesterday afternoon in conference with Prosecutor J. Howard Jones and other attorneys regarding the natural gas case in which the attorney general's office is interested. The news columns of Tuesday's Advocate announced the fact that the State of Ohio will take a hand in the fight to give the people of Newark an adequate supply of gas.

Mr. McGhee is an experienced and talented lawyer who has been first assistant to Mr. Hogan and who has been advisory counsel to the State Utilities Commission. He is in close touch with public affairs and his training as a lawyer eminently fits him to carry on the work of the Attorney General's office. Mr. McGhee is in the prime of life being 42 years of age. He is a prominent

Mason and a member of the Knights of Pythias. Mr. McGhee has practiced law since 1898.

That was a splendid tribute President Wilson paid to Congressman Ashbrook in his telegram to the Advocate on Tuesday. Stop to think that it was Woodrow Wilson who saved the United States from war. He stood firm while the opposition ridiculed and tried to urge him on to an armed clash. If you approve of Wilson's peace policy the way to show it is to vote for Democratic success next Tuesday. "War in the East, peace in the West. Thank God for Wilson."

## Less Than a Cent

You may know a woman who has a reputation for making delicious cake, biscuits, etc.,—who seems to hit it right every time.

You may also know a woman, who, no matter how painstaking, can't seem to get the knack of successful baking.

Both use the same butter, same eggs, same flour and sugar. What is the difference?

Very likely it's all in the baking powder. Undoubtedly the woman with the knack uses Royal Baking Powder, and the unsuccessful woman uses an alum baking powder thinking it cheaper.

Yet the difference in the cost of a whole large cake is less than a cent.

It is economy to use

This will be bargain week in trimmed and untrimmed hats at House & Schaeffer's Millinery Store, 42 Hudson avenue. 26-6t.

Mr. and Mrs. P. P. Comisford entertained Sunday at their home "Cedar View", near Granville. The following guests were present: Mr. and Mrs. B. F. Birch, Bernice and Hamlin Birch, Beatrice Karna of Lebanon, Mr. Charles Baker, Mr. and Mrs. F. S. Lees and Mr. Howard Lees of Newark, Glen Price and Walter Day of Granville.

A very pretty wedding took place at St. Francis de Sales church on Wednesday morning when Miss Ethel Dial and Mr. John Jones were united in marriage.

The church was arranged with flowers and the nuptial mass was celebrated by Rev. Father Ranno. The bride wore a coat suit of blue cloth and a hat of the same color with ostrich feathers. The bridal bouquet was a corsage arrangement of white roses and sweet peas. She was attended by her sister, Miss Evelyn Dial who wore a coat suit of black with a black hat trimmed in gold. She wore a corsage bouquet of pink roses. The groom was attended by Mr. William Dunn.

Following the wedding service a wedding breakfast was served at the bride's home in Chestnut street, the bride's table being arranged with roses and smilax. Mr. and Mrs. Jones left for a trip to Danville, O., where they will be the guest of friends and relatives and on their return they will reside at 112 Chestnut street. The bride is the daughter of Mrs. Etta Dial of Chestnut street, while the groom lives in South Second street.

The regular meeting of the Federation of Women's clubs will be held Thursday afternoon of this week at 2 o'clock in Taylor Hall. All women interested, who can possibly come, are urged to attend.

Mr. and Mrs. Charles Hissong, of near Wilkins Corner, entertained on Sunday Jay W. Fisher and family of St. Louisville, Mr. and Mrs. Louis Olinger of Zanesville, and Misses Frances, Edna and Louene Hayes of this city.

Mr. and Mrs. J. J. Stillion entertained Sunday at dinner, Mrs. Wesley Nixon, Mr. and Mrs. Roscoe Hecker and son Aden and Mr. John Young.

Mr. and Mrs. O. B. Inlow pleasantly entertained at their country home five miles east of Newark Saturday evening in honor of their daughter, Miss

Etta's birthday anniversary. The evening was spent in games and music, and an oyster supper was served the following guests: Mr. and Mrs. Avie Osburne, Mr. and Mrs. Zane Wickham, Mr. and Mrs. Karl Schultz, Miss Kathryn Wickham, Messrs. Cherry, Alexander, Roy and Ralph Wickham, John Langdon Schultz, Charles and Homer Osburne, Howard Bolen.

**CROZIER—FULTON.**  
Mr. William Crozier and Miss Eva Viola Fulton were united in marriage at the home of Rev. James M. Lamp, 611 West Main street, Tuesday afternoon at 2 o'clock Mr. and Mrs. Crozier will make their home in this city. Their many friends extend to them their best wishes.

**P. H. Richards.**  
Mr. P. H. Richards of Jersey township, died Wednesday morning at 9:45 o'clock as the result of a paralytic stroke which he sustained three weeks ago. He was born in Licking county in March, 1843, and is therefore 71 years and 8 months of age. He resided in this county all his life and the only relative surviving him is Dr. S. S. Richards of No. 76 North street, this city.

The funeral will occur at Alexandria, Friday afternoon at 1 o'clock, and burial will be made in the village cemetery.

**Card of Thanks.**  
I wish to thank all who so kindly assisted and gave sympathy during the sickness and death of mother and grandmother, Christine Miller. Special thanks to Drs. Willard Rank and J. A. Mitchell, Rev. C. G. Hazlett, the choir and organist, and those who presented flowers. I appreciate greatly the letter of sympathy from the ministerial association.

**THE SICK**  
Mr. H. C. Alspach of 141 North Eleventh street was removed in the Bazler & Bradley ambulance Tuesday afternoon from the city hospital to her home.

James Burgess, 4, son of Mr. and Mrs. F. A. Burgess of 118 North Cedar street, who has been a patient at the city hospital, was removed to his home in the Bazler & Bradley ambulance.

Mrs. Joseph Ehner, who underwent a serious operation at the Protestant Hospital in Columbus, has sufficiently recovered to be brought to her home, 26 South Fifth street today. She was moved in McGonagle's ambulance, and her condition is very satisfactory.

**File Complaint Against the O. E. Before Commission**

Columbus, Oct. 25.—Clarissa Cook Moor, living near Toledo, Ohio, complains against the Ohio Electric Railway company with the state public utility commission today, asking that the railroad be compelled to deliver shipments of milk at any place in Toledo. She declared that when the road was built through several farms she owns near Toledo, the company agreed to provide convenient passenger and freight service on the farms, but later refuses to deliver milk shipments except at the terminal station, Toledo.

**MECHANICIAN DEAD.**  
Galesburg, Oct. 28.—Elmer Walker automobile race mechanician died in a hospital here today from pneumonia received last Thursday when Jack Gable's machine tipped over during a ten mile race here.

## Personal

Charles Edwards of Chillicothe transacted business in the city Wednesday.

Ed. A. Anderson of Zanesville was the guest of friends in this city Tuesday evening.

Dr. Wm. Howard Lewis will leave tonight for Bellaire where he will read a paper on Exophthalmic goitre.

Guy Miligan of Upper Sandusky, O., representing the St. Louis Globe and Lamp company, was a visitor in the city Tuesday and Wednesday.

Joseph Cannon, former circulation manager of the Advocate, now traveling for a Buffalo chair factory, was a visitor in the city Tuesday and Wednesday.

George Winters, son of F. J. Winters of South Sixth street, left for Chicago to join Gene Garrity, with whom he will tour the state of Michigan and then Texas for the Cusack Advertising firm.

Mrs. Walter Ashley of Chillicothe, who has been visiting her mother, Mrs. I. H. Dowling, of North street, left today for her home, accompanied by her son Robert of Ashland, who spent a few days in Newark, and her son Forest, formerly of this city.

**CONCERT FOR BENEFIT OF THE MOOSE LODGE**  
The Williams Concert company, which made such a decided hit in this city last season at the Auditorium when they sang here under the auspices of the Moose lodge, have arranged for a return date when they will give a concert at the High School Auditorium on Friday evening, Nov. 20, for the benefit of the Moose lodge. The company is composed of eight colored songsters and is said to be one of the best on the road.

**CLEVELAND GETS 35 MORE SALOONS THAN LAST YEAR**

Columbus, O., Oct. 28.—Cleveland will be entitled to 35 new saloons this year as a result of increase in population, according to a report of the state liquor licensing commission made public today. This city shows the largest increase of any in Ohio. Mohoning county ranks next with 22 additional saloons. Columbus was allowed 10 new licenses.

The United States census bureau estimated the population of Cleveland at 646,501, and this allows 1,292 saloons.

**FEEL-MINDED PATIENTS CAUSED A FATAL WHIRL**

Oswego, N. Y., Oct. 28.—Three inmates of the state home for feeble-minded at Syracuse were responsible for the wreck of the Manhattan flyer on the Delaware, Lackawanna & Western Railroad, near Fulton, on October 17, in which two persons were killed and 15 injured, the police announced today. They said the trio wanted revenge for having been thrown off a train some time ago.

## BRITISH DETAIN AMERICAN SHIP AT GIBRALTAR

(ASSOCIATED PRESS TELEGRAM)  
Washington, Oct. 28.—The American ship Kroonland from New York bound for Spain and Greece with a cargo of copper, has been detained at Gibraltar by British authorities, according to a report to the state department today from American Consul Sirague.  
Consul Sirague did not report the reason for the detention of the Kroonland, but as copper is listed by the British foreign office as conditional contraband, it is assumed that the British government's attitude will be similar to that in the case of another ship which carried copper to Holland. In that case when the Dutch government gave assurances that copper cargoes would not be reshipped from Holland the British government withdrew its objections.

## SIXTH EXCHANGE MAY BE ADDED TO TELEPHONE SYSTEM

A lease agreement has been entered into by the Newark Telephone company and the Brownsville Telephone company whereby the local company takes over the Brownsville exchange for a period of 99 years. This agreement was entered into subject to the approval of the public utilities commission.

That application has been made for such approval is indicated by the following Associated Press dispatch to the Advocate Wednesday afternoon from Columbus:

Joint application to the state utilities commission was made today by the Brownsville Farmer Telephone company and the Newark Telephone company asking for consent to lease the property of the Brownsville company to the Newark company for 99 years. The Brownsville property has been appraised at \$7,784.16.

When this plan is added to the system the Newark company will be operating six exchanges, located in Newark, Granville, Hanover, St. Louisville, Somerset-Glenford and Brownsville.

## The Courts

The jury in common pleas court in the case of Edward Allen vs. Fred S. Sperry having failed to agree upon a verdict after due deliberation for a considerable length of time were discharged from the case. The suit was brought to determine the ownership of a stock of groceries at Utica, formerly levied upon by the sheriff to satisfy a judgment.

In common pleas court on Tuesday afternoon the court and a jury took up the case of Ruth Jarvis, an infant, against Phil Vogelmeir. The plaintiff asks for damages for personal injury for being struck by a hack which was driven by one of the plaintiff's employees.

**Divorce Petition.**  
Frank Ross has entered suit in the probate court against Elizabeth Ross, asking for a separation. In his petition the plaintiff recites that they were married in December 1911, and have one child, Alva aged two years. For cause of action he alleges that defendant has an ungovernable temper and uses abusive language to him; that she poisoned the baby's mind against him and that on one occasion she broke up the family dishes.

**Probate Court.**  
The will of the late Louisa Koos, has been admitted to probate and Ray Martin has been appointed administrator under the will. Bond, \$100.

The will of the late Louisa Bell of Washington township has been admitted to probate and Leander Buxton appointed administrator under the will. Bond, \$5,000.

**On Inspection Trip.**  
Engineer John C. Swartz accompanied by Oliver Stalter of Etna township, F. C. Osborn of Franklin township, and Bruce Stewart of this city, viewed on the Patton road in Burlington township, left Wednesday morning on an inspection tour of the road, a petition being before the commissioners for a number of changes and alterations.

**Transcript Filed.**  
A transcript from the court of Justice Fletcher S. Scott has been filed in the common pleas court in the case of E. O. Norris vs. Charles G. Richardson on account of \$68.24 for lumber having been allowed plaintiff.

**Marriage Licenses.**  
William C. Cier, a car-builder, and Miss Eva A. Fulton, both of this city, were by J. M. Lamp.  
Walter C. Kimmel, wholesale dealer of Van Wert, O., and Martha Watkins, officer in the National Army; Hixradier David E. Cier.  
Harvey Beck, farmer of Black Run and Nellie I. Mossman of this city, were by W. D. Ward named to officiate.

**Appointed Executor.**  
Jaham of Homer, O., has been named executor under the will of the late Archibald Burrington township. Bond required, \$100.

**Divorce Granted.**  
Liming was granted a divorce from her husband, Fred Liming, in probate court Tuesday by Judge Robbins. The grounds of her petition were that there was no contest of the defendant. The parties were married Sept. 22,

1913, Liming being eighty years of age and the plaintiff forty-five. In her petition she alleges her husband threatened to kill her and on one occasion while she was asleep struck her with a base ball bat.

**Appointed Administrator.**  
John Moroney has been appointed administrator of the estate of Anna M. Madison, of this city. Bond \$9,000.

**Injunction Asked.**  
The trustees of St. Albans township have brought suit against George Vannoss, asking for an injunction restraining him from closing a right of way north of the village of Alexandria, and which is used by the school children to reach the school house. The land in question is part of a burying plot owned by defendant, the township trustees claiming a right of way. They state in their petition that defendant is about to close it by erecting a gas well derrick and moving in a boiler.

## ASSURES WILSON OF SUCCESS OF THE DEMOCRATS.

(ASSOCIATED PRESS TELEGRAM)  
Washington, Oct. 28.—Col. John Harvey called upon President Wilson at the White House today for the second time within a month. He told the president that in his opinion the outlook for Democratic victory was excellent.

Col. Harvey has talked with Henry Watterson since the latter's call on the President recently and it was said that the pre-election unpleasantness had been "ironed out."

## 100,000 PEOPLE IN JERUSALEM FACE STARVATION.

(ASSOCIATED PRESS TELEGRAM)  
New York, Oct. 28.—One hundred thousand inhabitants of Jerusalem facing starvation, according to Samuel Edelman, American vice consul in that city who reached here today on the steamer Ancona.

Two-thirds of the residents of Jerusalem are Jews, Mr. Edelman said. For many years they have depended upon their earnings from tourists and upon charity for support and the war has cut off all their sources of subsistence.

## "MOTHER" JONES ASKS PRESIDENT TO CLOSE THE COLORADO MINES

(ASSOCIATED PRESS TELEGRAM)  
Washington, Oct. 28.—President Wilson was asked today by "Mother" Jones, the mine strike leader, and James Lord, of the mining department of the American Federation of Labor, to close down the Colorado coal mines. If the operators continue to refuse the federal plan of mediation already accepted by the miners. The president is said to be doubtful of his authority to close the mines, but was told that in the opinion of the labor leaders he has the authority to do so.

## GERMAN PLANE DROPPED BOMB ON SWISS SOIL.

(ASSOCIATED PRESS TELEGRAM)  
Paris, Oct. 28.—A Havas News Agency despatch from Belfort says that a German Aeroplane which flew over the fortress of Belfort on Friday and into Switzerland dropped a bomb which fell in Swiss territory. Much irritation against Germany is added, was caused there by the incident.

**STOPPED RUNAWAY HORSE.**  
A horse hitched in front of the Georgetown fruit store broke loose shortly after noon, Wednesday, and started north on Third street. David Buck grabbed the shaft of the buggy as it was passing the Scott furniture store and securing the lines brought the runaway to a stop just as the owner came chasing after his steed. He generously reached in his pocket and tendered a bill to Mr. Buck, but he declined it, hurrying away without even giving the owner his name.

**DESTROYER EAST ON RAIL.**  
Norfolk, Va., Oct. 28.—The torpedo boat destroyer Paulding, which went on a sand bar in Lynnhaven inlet during the storm early Tuesday morning was still fast today. Her crew is aboard and neither vessel nor men are in any danger.

It was said at the navy yard it might be necessary to make a channel to get her out.

# COX PRODUCES OIL AFFIDAVIT

Shows Influence Archbold Letters Had on Willis.

## ACTED ON ORDERS SENT OUT

Six Days After John D. Archbold Wrote to Senator Hanna Demanding the Action Willis Sent His Own Anti-Trust Resolution to the Legislative Graveyard.

Governor Cox, speaking before a large audience at Cleveland, read an attested affidavit in proof of his charge that Frank B. Willis, Republican gubernatorial nominee, was influenced by Standard Oil while a member of the general assembly. The affidavit was by Charles H. Gerrish, former clerk of the Ohio house of representatives, who was Mr. Willis' manager in the recent primary fight.

Governor Cox said in his speech: "Not long ago I took occasion to quote a letter from John D. Archbold to Senator Marcus A. Hanna, which letter related to a resolution introduced into the Ohio legislature by Mr. Willis, who was then a member of that body. The letter in full was as follows:

26 Broadway, New York, Jan. 19, 1900

Dear Senator—The matters regarding which I wanted to talk with you this afternoon are those of threatened and very objectionable legislation at Columbus. The first is a bill introduced by Mr. Russell of Meigs, amending the so-called anti-trust law in a way that would be most objectionable to every corporate interest in the state. Probably you are familiar with this bill.

The second is a most malicious resolution for an investigating committee to be headed by Griffin of Lucas, giving them power to investigate pretty much everything within the state from the supreme court down. The resolution does not limit the expense of the investigation and authorizes the employment of counsel. It is said to be the intention of the committee to employ Mr. Monnett as the counsel. We want to enlist you actively and promptly to the defeat of these measures. They are undoubtedly inspired by Monnett and his followers, and their purpose is to annihilate the Ohio legislature. The appointment of the "maurauding" committee comes up by agreement on the 25th, so that it is as well as the other should be attended to very promptly. Will you do everything possible to compass their defeat? Shall be glad to hear from you promptly.

I enclose you clipping from The Plain Dealer describing the Willis resolution.

Very truly yours,  
JOHN D. ARCHBOLD.  
Hon. M. A. Hanna, Washington, D. C.  
(Page 11542, Congressional Record—Senate, Aug. 22, 1913.)

"It will be noted that this letter is dated Jan. 19. On Jan. 25, on motion of Mr. Willis, the author of the Willis resolution to investigate corporations in this state, the resolution was referred to the judiciary committee of the house and never again heard from."

"Mr. Willis has hedged and dodged the issue. And has demanded that I produce the affidavit. So tonight, here in the home of Standard Oil, here where John D. Rockefeller was a citizen before the Barnes law caused him to seek a residence in another state, where, in the presence of people who are familiar with Standard Oil methods, I desire to read the following affidavit:

State of Ohio, Franklin County, ss: Charles H. Gerrish, first duly sworn, deposes and says:

At the beginning of the legislative session of 1900, I was acting as instructor to the then clerk of the house, my term as clerk having expired with the election of Mr. McKinnon. During that legislative session, as was customary at that time, the large interests kept close watch of all legislation through attorneys and legislative agents. Being advised that house resolution No. 22, by Mr. Willis, was regarded as inimical to certain interests which I represented, I called on W. S. McKinnon, who was Republican floor leader and chairman of the finance committee, and brought the views of the interests which I represented regarding house resolution No. 22 to his attention. I at once took me to the office of Auditor of State Guilbert, who sent for Treasurer of State Isaac Cameron. After hearing what I had to say about the resolution, Messrs. Guilbert, Cameron and McKinnon told me they would take care of it, and I thereupon reported accordingly.

A few days later the resolution was, upon the motion of Mr. Willis, the author, referred to the judiciary committee of the house, which was known at that time as the graveyard of the undesirable legislation. The Willis resolution was not reported out by the judiciary committee, and was not finally called up by its author. It died in the committee with the legislative session.

It is M. West and other prominent Republicans are familiar with all of the facts connected with the Willis resolution.

C. H. GERRISH.  
Sworn to and subscribed before me this 15th day of October, 1914.  
J. S. STAYES,  
Notary Public, Franklin County, Ohio.  
My commission expires March 15th, 1915.

"If, in placing his anti-trust resolution in the legislative graveyard and keeping it there until the close of the session, Mr. Willis was not permitting himself to be used as a tool of the big interests, why did he refer his resolution to the judiciary committee, and having done so, when that committee did not report it back to the house in due course, why did not Mr. Willis demand that it be reported?"

"If Mr. Willis will not answer these questions the people of Ohio will answer them for him."

## French Traitor Shot By His Comrades

This monument was photographed on the battlefield near Reims in France. It shows the French treatment of spies found in their own ranks. The victim, a French soldier, was found during the engagement about Reims signalling to the Germans the positions of French guns. He was at once arrested and tied to a stake erect. A squad of soldiers fired at him, and he slipped down a limp mass at the foot of the stake. They did not bother to bury him.

## TRAWLER RESCUES SURVIVORS OF A SUNKEN STEAMER

(ASSOCIATED PRESS TELEGRAM)  
Fleetwood, England, via London, Oct. 28.—The trawler, City of London, arrived here today with the survivors of the British freight steamer, Manchester Commerce, which struck a mine late Monday night off the north coast of Ireland and sank. Captain Payne and 13 of his crew were drowned, while 30 others were saved by the trawlers.

Ambulances, physicians, and a large crowd of the townspeople were at the dock when the trawler came in. Second Officer Gee told the story of the disaster. He said:

"The explosion occurred 20 miles north of Tory Island on the main trade route from Manchester to Canada. The explosion shook the vessel as if it was merely a chip of wood. There was no doubt in anybody's mind as to what had happened. The ship began to sink at once and was beneath the waves seven minutes after striking the mine. The officers and crew exhibited

## SUPT. FREDERICK WILL NOT ASSIGN UNION TEACHERS

Cleveland, Oct. 28.—Superintendent Frederick of the Cleveland schools will not reinstate the six teachers he failed to reappoint because, as alleged, of their union activities, as was urged by Judge Neff of common pleas court, when he found Frederick guilty of contempt for failing to observe the court's restraining order which prevented discrimination against teachers for affiliation with the teachers' union, but will go into court Friday to resolve sentence and then carry his case to the court of appeals, it was stated.

Judge Neff, under the contempt law, may fine Frederick \$500 or sentence him to 10 days in jail, or both. Filing of an appeal bond, however, would work a suspension of the sentence until the higher court acts.

When Frederick was cited to appear for contempt of court he sought to have his case go to a court other than the one presided over by Judge Neff, but Chief Justice Nichols of the supreme court overruled Frederick's motion to that effect.

# The Home Rule Amendment Will Not Open A Saloon

In any City, Village, Township or District that is Now Dry by its Own Vote.

## The Home Rule Amendment

Will not repeal a single regulatory law. It will not affect the Sunday closing law, the sales to minors law, the sales to drunkards law, or any other regulatory law.

This is the unqualified opinion of Attorney-General Hogan and of such other leading Ohio lawyers as Judson Harmon, Lawrence Maxwell, Wade H. Ellis, James E. Campbell, John A. McMahon, William L. Day and George B. Okey.

The opinions of these eminent men are based on a TRUE copy of the Home Rule Amendment.

Any opinions to the contrary are based on a GARBLED copy of the Home Rule Amendment.

Below, side by side, are printed the TRUE copy of the Home Rule Amendment and the copy so FEARFULLY BUTCHERED by the opponents of Home Rule.

Public attention has been repeatedly called to the glaring mutilations here shown, and there has not been a word of explanation from those guilty of the misrepresentation. The Prohibitionists have no answer—here is the proof:

## THE EVIDENCE

The Truth of Proposed Constitutional Amendment Initiated by the Ohio Home Rule Association to be Voted on Nov. 3, 1914:

Article XV, Section 9a—No law shall be passed or be in effect prohibiting the sale, furnishing or giving away of intoxicating liquors operative in a subdivision of the state upon the option of the electors thereof or upon any other contingency, which has force within a territory larger than a municipal corporation or a township outside of municipal corporations therein.

All laws in contravention of the foregoing are hereby repealed.

Nor shall any law HEREAFTER be passed prohibiting the sale, furnishing or giving away of intoxicating liquors throughout the state at large.

Note carefully the word HEREAFTER underscored in the true copy of the amendment. The petitions carrying this amendment were circulated in all the counties of Ohio during the entire month of July, and have been on file in the Secretary of State's office since August 4, and there can be no excuse offered by the Prohibitionists that they could not secure a true copy of the amendment.

Garbled Copy of Proposed Constitutional Amendment sent out by Prohibitionists to the Public and Submitted to Lawyers on Which to base Opinions:

Article XV, Section 9a—No law shall be passed or be in effect prohibiting the sale, furnishing or giving away of intoxicating liquors OPERATING (1) in a subdivision of the state upon A VOTE (2) of the electors thereof (3) or upon any other contingency (4) which has force, (5) within (6) territory larger than a municipal corporation or (7), township outside of municipal corporations therein.

(8) All laws in contravention of the foregoing are hereby repealed. Nor shall any law (9) be passed prohibiting the sale, furnishing or giving away of intoxicating liquors throughout the state at large.

(1) "Operating" should be "operative."  
(2) Should be "the option."  
(3) Comma omitted.  
(4) Comma omitted.  
(5) Comma inserted.  
(6) "a" omitted.  
(7) "a" omitted.  
(8) This sentence should be part of the first paragraph, not of the second.  
(9) Word "HEREAFTER" omitted.

The same people who are convicted by the evidence presented above made the unfounded claim that the license law would repeal regulatory law—and experience has proven that the license law strengthens all regulatory laws.

## The Home Rule Amendment

Simply makes the town, the village and the township the largest units in local option elections—it repeals the obnoxious Ross County Option Law and it prevents State-Wide Prohibition except on a vote of the people—and does nothing more. . .

A "Yes" vote on Home Rule is a vote against County Prohibition and legislative State-wide Prohibition.

## REMNANT

OF ONE HUNDRED BELGIANS LEFT OUT OF A REGIMENT OF SIX HUNDRED

Through an Error Men Had Been Drilled and Inspected Instead of Rested.

(Associated Press Telegram)  
London, Oct. 28.—The Daily News today describes the terrible experience of one Belgian regiment during the battle on the coast when the regiment withdrew from Antwerp. Through some error it was given two days drill and inspection instead of rest and then went into action again in the network of trenches on the banks of the Yser. The newspaper correspondent in his despatch quotes one of the soldiers in this battle as follows:

"There was a farm house on our right and some of our men were firing at it when the door opened and three officers in Belgian uniform stepped out shouting to cease firing. We sent a detachment of men to the farm and they were swept away by machine gun fire.

"Later we entered the trenches. They were full of water and I was firing for six hours, thick deep in water. The German machine guns shot us out of crevices in a raised bank only a few yards across the river. The Germans then got into our cross trenches and fired down our lines. We had to run back. I was too sleepy to run. I must have fallen asleep and then we must have been ordered to advance. I was too tired to get up but someone kicked me and I got up as did the man in front of me. He immediately was shot through the head and fell back on me. I got up again. A shell burst near me and three men who were running past just disappeared. I found myself running forward again with others with fixed bayonets onto the Germans who were firing from our own trenches. We were two hundred left from six hundred. We did not wait but scrambled over the bank across the river. We crouched in a big trench in muddy water. It was dark and we heard, we thought, Germans whispering on the river side of our bank only six feet away from us. The speakers were three hundred Germans who had stayed on our side fearing to cross the river under our fire.

"So we stayed all night. Neither they nor we slept. Some of our men who crept up the bank to look over were shot. Some of the Germans climbed over and we fired at their heads, hands and arms as they became visible. A few made holes through the looser earth through which we fired on each other. Then the French got around the end and there was heavy firing. We heard a few of the enemy slipping down to the river edge and the splashing of water. Then we scrambled over the bank and won. Only a hundred of our regiment now remain."

## SEVERAL MINES WASHED ASHORE ON DUTCH COAST

(Associated Press Telegram)  
London, Oct. 28.—A dispatch to the Daily Mail from Flushing, Holland, says:

"Several mines have been washed ashore along the coast below Ostend. All were in excellent working order for they exploded promptly, doing, however, no serious damage.

"The Germans have fallen back slightly from Westende. They are putting the coast from Ostend to Knocke in a state of defense. In Ostend preparations are being made to place mines at the harbor entrance.

"The German losses on the Nieuport-Dunne line are estimated at 16,000 killed and 30,000 wounded. During Sunday four hundred vehicles loaded with wounded soldiers passed through Ostend.

"The Germans have commandeered a large quantity of lumber at Bruges for use in building a giant ship shed at Goldenduck. Artillery is being placed in the Dunes between Huyt and Duhberg. Five trainloads of artillery have been taken to Zebrugge."

## COMBING WON'T RID HAIR OF DANDRUFF

The Easiest and Best Way Is to Dissolve It.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary fluid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it brittle, straggly, dull, dry, brittle and lifeless, and excites the scalp. You can get fluid arvon at any drug store. It is expensive and never fails to do the work.

## Best Laxative For Children

When your baby is cross and fretful instead of the happy, laughing little dear you are accustomed to, in all probability the digestion has become deranged and the bowels need attention. Give it a mild laxative, dispel the irritability and bring back the happy content of babyhood.

The very best laxative for children is Dr. Caldwell's Syrup Pepsin, because it contains no opiate or narcotic drug; is pleasant tasting and acts gently, but surely, without griping or other distress. Druggists sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 451 Washington St., Monticello, Ill.

## HOW TO VOTE JUDICIAL TICKET

Under the new non-partisan Judicial Ticket law, the candidates for the various Judicial offices will appear on a separate ticket, with nothing to designate their political position. The following explanation of the ticket is given in order that Democratic candidates may know how to mark their ballots. Those marked with the X are the Democratic nominees, and for these Democrats will vote. For convenience, the voter should cut this out and take it with him to the polls on November 3:

| Judicial Ticket |   |

## DISPATCH STATES FIGHT FOR CANAL FAVORS GERMANS

(Associated Press Telegram)  
London, Oct. 28.—An Amsterdam dispatch to the Chronicle dated Tuesday says:

"The only news arriving here today from Berlin is to the effect that the fight for the Yser canal is going favorably for the Germans.

"During the past few days the Germans have been sending great quantities of food, blankets and other stores from Antwerp to an unknown destination and the townpeople of Antwerp fear there will be a shortage of these articles. The Germans are believed to get 90 per cent. of the tramway receipts.

"It is said the German assertions that British artillery had driven the British back from Antwerp toward the bombardment of the ships was merely a rumor. It is stated today that the atmosphere in the state of constant variation and a large area all day."

## ORDERS

GIVEN TO GERMANS AS TO BEST MEANS OF AVOIDING HOSTILE AEROPLANES.

No Mass Formations should be Allowed, and Absolute Stillness is Enjoined.

(Associated Press Telegram)

London, Oct. 28.—The correspondent of the Daily Mail in Paris, in a dispatch to his paper gives a copy of the German order on avoiding aeroplanes. It says:

"According to the report of aeroplane observers our troops are very easy to discover in spite of their gray uniforms, because of the density of their formation, while the French know how to protect themselves perfectly from aerial reconnaissance.

"During a fight our troops must make use of the narrow files among the trees, at edges of villages and near the shelter of houses, avoiding mass formations. Above all absolute stillness must be maintained in exposed places. At the approach of an aeroplane all movements should cease and it is also necessary to avoid all movement of batteries when aeroplanes are surveying. A single man moving will betray a battery. There should also be no firing for the flash of a gun betrays its position to air squadrons.

"The success of the French artillery which has caused such marked losses is due, first to their quickness in determining the positions of our batteries. To equal them it is necessary that our observations should be pushed like theirs, far in advance of the lines by men of good courage who are not afraid of sharpshooters."

## WAR ON RIGHT OF GERMANS IS REAL MASSACRE

(Associated Press Telegram)  
Geneva, via Paris, Oct. 28.—Telegrams received in Basel, Switzerland, Tuesday night from Cologne and Coblenz declare that the war on the German right flank from Lille to the North Sea has become a massacre. During the last six days, it is declared many thousands of Germans have been killed or wounded.

Long trains containing wounded continue to pour into Cologne, Dusseldorf and Coblenz and the Red Cross doctors and the hospitals in those places are overwhelmed. It is stated.

In reply to reported attacks in the American press because Switzerland was not officially protested against the violation of Belgian territory, Swiss papers make answer that America should lead the way. Switzerland, they declare, is in an anxious and critical position.

Long trains containing wounded continue to pour into Cologne, Dusseldorf and Coblenz and the Red Cross doctors and the hospitals in those places are overwhelmed. It is stated.

# PROSPERITY IS LOOMING UP IN EVERY TRADE REPORT

More Manufacturers of the United States Following Domestic Market and Demands for Goods Increase Abroad—Cash Reserve Deficits Wiped Out and Interest Rates Are Lowered.

The return of prosperity in greater measure than the United States has known since the panic of 1907, is indicated by the trend of the news. Business of manufacturers is getting better and new avenues have been opened which promise to give this country a continuance of business advance. Reports are general as to improved conditions, justifying, in every sense, the policy of the national administration, and especially the currency act, which, wisely administered, has prevented even a semblance of a panic.

## FOREIGN PURCHASERS

ARE PLACING ORDERS HERE  
A New York dispatch this week reflects the rapid increase of trade for manufacturers, as follows:

Foreign purchases of American products have grown so rapidly in the last two weeks that many manufacturers are now working their plants overtime. Others are wondering how they can take care of the tremendous added volume of business. In some parts of the country manufacturing plants are being enlarged. Specific instances of the general trade boom are found in all sections of the country.

Twelve large motor trucks, each capable of carrying from three to five tons, yesterday were placed on board the steamship Rochambeau of the French line for shipment to Havre. The trucks are part of an order of 100 given to the South Bethlehem Steel company and distributed by it among different motor car manufacturers.

An order for 200,000 blue blankets for the French government was placed in Philadelphia yesterday with a company which started a mill to produce the goods. It is understood orders for many hundred thousands more blankets, both blue and gray, will be placed if satisfactory arrangements can be made. The price will be about \$3 a blanket. Another Philadelphia company is rushing a contract for 100,000 cotton garments to be shipped to the French hospital corps.

## Helps Domestic Goods.

Apart from the foreign orders for American manufactures, necessity produced by the war's embargo is driving daily more and more manufacturers into the domestic market. The results have been in the nature of a revelation in many places. Firms that put utter dependence on the imports are finding they can get the same quality of goods in the United States.

Equally as important is the development of resources hitherto unsupplied in many quarters. Supply houses which have been relied upon to fill the demands of American houses with imports are branching into the manufacturing business with results entirely satisfactory.

Furthermore the cutting off of supplies from Europe have alienated from the continent account of many years' standing. The placing of orders that formerly went abroad has put the American manufacturers on edge. Those who already have cut into the import trade are resolved that no matter when the war ends they will not relinquish the advantage they now hold.

Therefore, the spirit of permanency is beginning to govern every branch of the new industries. Machinery which in the first few weeks of the war was adapted to meet new conditions is being replaced with new machinery of the type used by manufacturers abroad. And the machinery is being made in America. The general business growth is getting to be like a snowball rolling down hill.

Foreign Patents for Sale.  
It was learned today that manufacturers are taking steps for the acquisition of patents which have been in the control of European companies. Many patent holders, forced by their financial position, are releasing their rights in this country to American manufacturers.

It is understood the French government has placed an order here for 150,000 pairs of shoes. Reported inquiries from foreign governments for shoes aggregate about 1,500,000 pairs. A contract was obtained recently from Greece.

One company is said to have just closed an order for from 70,000 to 80,000 sweater coats for one of the belligerent countries.

Inquiries, understood to be from the Russian government, have been made for 2,000 tons of lead for immediate shipments. Heavy shipments of spelter are being made to Europe, and there are continued inquiries from Russia and Great Britain for antimony.

Reports from Chicago say the export business of the Union Carbide company is growing steadily.

## CASH RESERVE DEFICITS

ENTIRELY WIPED OUT  
The weekly statement of the New York bank shows almost a complete wiping out of the deficit in cash reserves. When it is considered that in August the deficit was \$100,000,000, the improvement is remarkable.

Try Hunter Eye Remedy for Red, Watery Eyes and Irritated Lashes.

the declaration of war, the deficit rose almost \$52,000,000, the rapidity with which the adverse condition was overcome is remarkable. After the panic of 1907 the surplus was not restored until Jan. 11 of the ensuing year. The statement shows a gain in cash reserves of \$6,000,000. In its main essentials it is the most favorable statement since the war broke out.

As usual no statement of actual condition was issued. The statement of average condition follows: Loans \$2,175,513,000, decrease \$4,423,000; specie \$335,630,000, increase \$4,678,000; legal tenders \$98,936,000, increase \$1,441,000; net deposits \$1,331,447,000, decrease \$3,792,000; circulation \$146,227,000, increase \$2,088,000; banks cash reserve in vault, \$369,491,000; trust companies, cash reserve in vault, \$65,075,000; aggregate cash reserve \$434,566,000; deficit cash reserve \$934,150, decrease \$6,857,200; trust companies' reserve, with clearing house members carrying 25 per cent cash reserve, \$50,706,000.

Summary of state banks and trust companies in Greater New York, not included in clearing house statement: Loans and investments \$562,581,100, decrease \$887,000; gold \$41,136,800, decrease \$1,461,000; currency and bank notes \$13,537,200, increase \$496,300; total deposits \$638,576,800, decrease \$304,700.

## Money Market Easier.

A distinct easing up in the money market was the leading feature of the week's financial situation. In New York, a break in the 5 per cent rate for call loans occurred, most loans being reduced to 6 and 7 per cent bases. Locally the effect was also felt in involuntary reductions by country banks and the city institutions that have been charging over 6 per cent to 6 and 6 1/2 per cent. Some of the city banks have adhered all along to the 6 per cent rate. Greater freedom in shifting loans was also in evidence. Many local brokers are anxious for the New York Stock Exchange to reopen. They favor the plan for a resumption of trading, at least on a cash basis.

The banks had an active week. The country was in the market for loans, and local industrial and commercial houses were also negotiating loans. Depositing and checking was heavy during the week. Pay rolls showed a slight improvement, and the prospects for next week are encouraging in this respect.

Clearings for the week of five days were \$22,341,400 compared to \$22,243,500 for the week previous of six days. The corresponding week last year clearings amounted to \$26,816,100. Clearings yesterday were \$4,285,700. On Saturday of last week they were \$3,376,500.

## BONDS ARE SELLING

IN OHIO SUBDIVISIONS.  
An issue of \$150,500 of Franklin county 5 per cent road bonds was split. Fred W. Freeman of Columbus bought \$50,000 at par and accrued interest. Previous attempts failed to find bidders for the lot.

The \$1,200 issue of school bonds at Doylestown was purchased by the Doylestown Banking company at par and a premium of \$10.

## AMERICAN MACHINES WANTED.

Machines and machine tools, "Made in America," are coming into extensive and insistent market. Throughout the world, events of recent weeks have evidenced a decided turning to this country for all kinds of apparatus and implements. This situation has developed because of the suspension of the manufacture of such equipment in Germany and England. The department of commerce is expected to appoint a special agent to find out in South America and other countries just what kind of machinery is wanted there, and at the same time to spread the merits of the ingenious and accurate mechanisms that are made in the United States. Meanwhile many inquiries are being received by manufacturers from all over the world.

## EQUAL SUFFRAGE

BEFORE VOTERS

NEXT TUESDAY

Cleveland, O., Oct. 28.—"Every western state voting on suffrage seems certain to endorse it this year. I have not been in Ohio long enough to make a prediction, but I should hate anyway to predict that Ohio would be the one backward commonwealth out of eight." So says Mrs. Emma Smith Devoe, president of a league of women who already have the ballot. Her league covers the states of Wyoming, Colorado, Utah, Idaho, Washington, California, Oregon, Arizona, Kansas, Alaska and Illinois.

"In the western states that have had suffrage nothing sounds more ridiculous than to recall the old arguments that were used against it. We in Washington won the ballot at the first election where it became an issue. Furthermore, we carried every county, two of them by votes of three to one and fourteen of them by votes of two to one.

"We had suffrage in Washington once before. It was given to women by the territorial legislature and taken away by a court after a two-year trial. The politicians found women rather hard to round up on election day. It is interesting to know that the judge who took the ballot away from the women ran for supreme judge at the first election after the women had the ballot. He was the worst defeated man on the ticket.

"Women voters are, as a rule, non-partisans and impersonal. They are interested in issues only and go after their objects by the shortest means possible. Ohio politicians may not believe in woman suffrage this year, but if you win they will all be in favor of it next year and they will say they were 'always for it.'"

## PURITY

There will be no services at Eden next Sunday, but an all-day meeting and temperance rally will be held at Rocky Fork, instead. This event marks the closing of the recent contest between the Sunday schools of Eden and Rocky Fork.

It has eight-hole top, four coal and four gas covers, all can be used at once.

If you desire to burn coal or wood only, a small cover slips over gas burner in oven bottom as shown below.

When coal and gas are used at the same time, the small cover over the burner is removed and huffed plate is set in oven bottom prongs downward.

# TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its vigor, color, gloss and thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation of your hair is fading, gray or dry, greasy and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant. # ACTUAL COUNT SHOWS WOMEN WANT BALLOT, SAY SUFFRAGE ORGANIZERS

SUFFRAGE FIELD ORGANIZERS COUNTING RETURNS OF CANTON. LEFT, FLORENCE E. ALLEN, CENTER, ELIZABETH J. HAUSER, RIGHT, GRETA COLEMAN.

Suffragists in Ohio no longer evade the time-worn question, "Do the women want it?"

"Nothing could please us more than a test of numerical strength with the anti-suffragists," says Florence E. Allen, field organizer for the

ten per cent of the women want to vote. Since then, I understand, she is conceding that twenty-five per cent want to vote.

"From ten per cent to twenty-five per cent is quite a gain, especially when the opposition concedes it. The actual enrollment of known suffragists, however, is well above the latter figure.

"But I do not confine my claim to the 300,000 and more members of organizations pledged to suffrage. I have been in the field continuously during this campaign. Generally I have been in charge of a squad of five or more organizers. We have canvassed the sentiment in fifteen counties. In many towns this included a visit to every house in town and an interview with every housewife.

"In some instances ninety per cent of the women in a town gladly declared their sympathy with the suffrage cause. Of course, such a canvass is incomplete, but it has fairly represented sentiment in widely different localities. It means, in my opinion, that considerably more than half a million women are eagerly waiting to be enfranchised. I doubt if 500 have ever publicly expressed a desire not to have the ballot."

state suffrage association. "Not only would a vast majority of the women who voted at such a test declare for suffrage, but the majority of all the women would joyfully accept the chance to secure a badge of membership in human society.

"So far, our opponents have done most of the talking about our numbers. I debated with an anti-suffragist recently who said that only

# Theatres

**Auditorium Theatre Tonight.**

The program of photo-plays at the Auditorium Theatre for tonight is excellent. Miss "Dot" Farley is featured in a three-reel photo-drama of the west with a flavor of comedy. A new type of western drama that you must see.

The Albuquer Film Manufacturing Co., which features Miss "Dot" Farley has produced some wonderful pictures for Warner's feature line, but it can be safely said they never made a more entertaining or thrilling story than "The Unwritten Justice."

It is a story of startling climax, absorbing heart-interest and intensely realistic situations. The characters do not merely move across the screen; they live their parts with great dramatic effect.

**Coming Attractions at Auditorium.**

It is with much pleasure that the management of the Auditorium Theatre announces the coming of some very excellent photo-attractions.

"Cabrera" on Monday, Tuesday and Wednesday, Nov. 2, 3 and 4, is without a doubt one of the most stupendous film productions ever made.

Annette Kellermann in "Neptune's Daughters" plays a return engagement on Thursday and Friday, Nov. 6 and 7.

Other photo-productions that are coming are "Sand of Life," a powerful photo-play in 4 parts, "The Cruise of the Hell Ship," Capt. Swift, "The Will of the Wind," and Lyman H. Howe's Travel Festival.

"Damaged Goods" in the near future will be an attraction that everyone will want to see.

# FEEL BADLY ALL OVER?

When you feel badly all over but with no particular organ of your body noticeably out of order, you need a tonic for the blood. You require a medicine that will build the blood system. The blood reaches every part of the body and when it is built up the whole system quickly benefits.

Dr. Williams' Pink Pills are a non-alcoholic tonic that build up the blood, making it rich and red and thus supplying the tissues of the body the nourishment they need to keep them in health. Most general bodily results from thin blood. Every part of the body suffers and you feel badly all over. When the blood is restored and a healthful stream is going to every part of the body you soon see the result in a better appetite, an improved complexion, brighter eyes, bettered nerves and a new life.

Dr. Williams' Pink Pills are a most valuable family tonic and should be taken by every member of the family except infants whenever the general health is not what it should be. Much domestic sickness has been saved by the use of a tonic or purifying medicine in times of physical depression.

A book "Building Up the Blood" may be sent free by the Dr. Williams' Medicine Co., 350 North 4th St., New York, N. Y. All druggists sell Dr. Williams' Pink Pills.

# EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

Don't scold your fretful, peevish child. See if tonight is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all of the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy. Mamma! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so study look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

# BIG EATERS GET KIDNEY TROUBLE

Take a glass of Sals before Breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid on stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Sals; take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Sals is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in a mistake by having a good kidney every home, because nobody can make flushing any time.

# BEECH WOODS.

Rev. Eldsworth of Lancaster M. E. church delivered an address on the Home Rule Amendment proposal at Marshes M. E. church Sunday afternoon to a fair-sized audience.

Rev. Miller recently purchased the farm of the late Lewis Winegardner for \$2,500.

Many of our progressive citizens attended the Thornville pumpkin show this week. The show was a complete success and proved pleasant and profitable to all who visited it.

Otis Miller has purchased the Dave Miller farm along Rush Creek consisting of 10 acres for \$7,000 and expects to move early in November.

Rev. Kennedy the new pastor delivered his first discourse at the Christian Union church in Oakthorpe Sunday morning.

Samuel Louns recently purchased the Thomas property north of Oakthorpe consisting of 10 acres for \$1,325.

H. C. Lamb and wife spent Sunday with Harry Meyers and family. C. E. Dupler the Bruno implement dealer on R. D. No. 1 has placed in a new complete stock of hardware in Thornville.

Way, Binchley has given up the toil of country life and has moved to the city of Itasca in property which he purchased there.

# OUTVILLE.

Mr. and Mrs. Frank Legee have gone to Florida where they will visit their son.

The stork dropped a basket containing a package which landed at the home of Mr. and Mrs. Wayne Wells on Thursday morning last. It was a girl, who made Sam Wells grandpa for the first time.

The fine two-story frame house in course of construction for Clint Wells is about completed.

Workmen are now busy erecting the new two-room brick school house at Outville. Also one on York street road, and another three miles north of Outville.

If you wish the respect and admiration of a woman, do not make the mistake of permitting her to suspect that you are in love with her.

# Prevent Diphtheria.

A sore throat is a good breeding place for Diphtheria germs. Protect your children by never neglecting a Sore Throat. You can ward off danger upon TONSILINE. Give Tonsiline upon the first appearance of Sore Throat—don't give Diphtheria a chance in that throat in its weakened condition. When TONSILINE is swallowed it comes directly in contact with the diseased surface and induces a healthy condition of the membranes—then the system can better defend the throat against the Diphtheria germs. Keep TONSILINE in the house where you can get it quick when needed. 50c, 1.00, and \$1.00.

# YOUR HOME IS YOUR CASTLE

When the Prohibitionists a year ago in their anti-shipment bill said that you could not have more than a quart of wine, beer or liquor in your own home for your personal use, you rebuked that monstrous proposal.

Your majority against that un-American measure was 94,565.

This year the Prohibitionists are after your rights harder than they were last year, for now they want to prohibit the sale, manufacture for sale and importation for sale of liquors for beverage purpose.

That simply means that you will become a party to a criminal act if you should try to purchase in Ohio wine; beer or liquor for your household consumption or personal use---no matter in what quantity you wish to buy it.

Instead of permitting you in a manly and open way to obtain that which you want and have a right to have they would drive you to underhand methods to secure it.

More than that, the Prohibitionists would institute a system of Search and Seizure that would lead to the invasion of your homes by "Dry" detectives, as they have done and are doing in all Prohibition States.

You should have the right to say by your vote whether you do or do not want the saloon in your township or municipality.

# The Home Rule Amendment gives you that right.

You should likewise have the right to purchase wine, beer or liquors for your personal use or household consumption from a legal licensed dealer in Ohio, instead of a "speak-easy" or "kitchen-bar-room."

The Prohibition Amendment would drive you from the licensed dealer to the "bootlegger."

It is YOUR fight.. Make the victory this year more decisive than last, by placing you mark in two places on the separate amendment ballot:

Before "Yes" on Home Rule and Before "No" on State-Wide Prohibition.

A "Yes" vote on Home Rule is a vote against County Prohibition and legislative State-wide Prohibition.

Mark Your Ballot Like This:

A "No" vote on Prohibition is a vote against constitutional State-wide Prohibition.

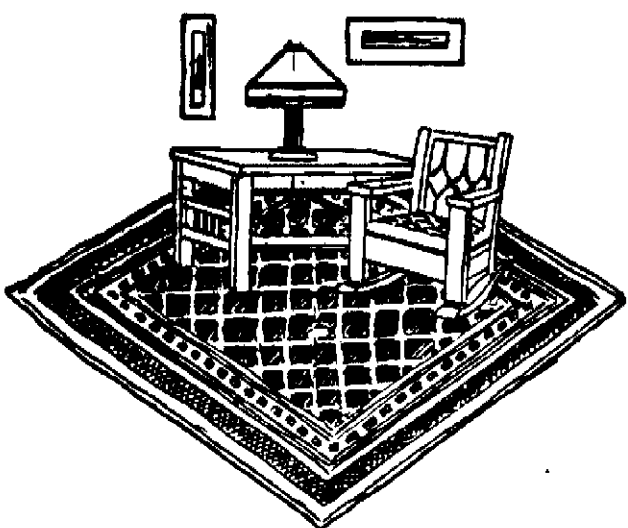

| Proposed Amendments to the Constitution |     |  |
|---|-----|--|
| X                                       | Yes | ARTICLE XV, SECTION 9a Home Rule On the Subject of Intoxicating Liquors.   |
|   | No  |  |
|   | Yes | ARTICLE, XII SECTIONS 1 & 2 Limitation of the Tax Rate and for the Classification of Property for Purposes of Taxation.            |
|   | No  |  |
|   | Yes | ARTICLE V, SECTION 1 To Extend the Suffrage to Women.  |
|   | No  |  |
|   | Yes | ARTICLE XV, SECTION 9 Prohibition of the Sale, Manufacture for Sale and Importation for Sale of Intoxicating Liquor As a Beverage. |
| X                                       | No  |  |

Prohibition in Ohio will not be conclusively defeated unless you mark your ballot in two places—"Yes" on the Home Rule Amendment and "No" on the Prohibition Amendment.

BE SURE that you get the separate Constitutional Amendment ballot at your election booth next Tuesday AND MARK IT FIRST.

The Advocate invites its readers living in these taxing districts to call on the county treasurer or county auditor for verification of these figures and statements. The figures are taken at random from the tax records. They show the general condition that prevails over the county. Do not be deceived by the false claims of the opposition. If you are in doubt as to the truth of the fact that the Warnes law actually saves money to the honest taxpayers, verify the figures at the court house yourselves. The people of Licking county have been greatly benefitted by the Warnes tax law and they will all know it when they pay their taxes in December.

## AN EXPRESSION OF GRATITUDE

Resident of West Halliday Street  
Found Better Health in One  
Bottle of Nerv-Worth.

"For the past 3 or 4 years I have been subject to severe nervous headaches, until my head would feel as though it would split open and I had those awful dizzy spells until I felt at different times as though I would fall over. I was persuaded to use Nerv-Worth and after taking one bottle I feel as though I should let the people of Newark know what it has done for me. I can truthfully say I have not taken any medicine that I have gotten the results with that I have with Nerv-Worth. Am feeling fine and I get a good night's rest. I certainly recommend Nerv-Worth to any one affected with Nerve trouble." These are the striking words of a written statement made by Mrs. Geo. Fraley of 27 West Halliday street, Newark. They exhibit that same gratitude which is felt by so many Nerv-Worth users—that same desire to pass the glad tidings around. If you have nervous debility see Mr. T. J. Evans at his drug store, Warden Hotel Building. Let him give you a sample dose of Nerv-Worth. The medicine is guaranteed. Money back if it doesn't help.

### FRENCH ARTILLERY

(Continued from Page 1.) are capable of carrying the war into the enemy's country while holding the invading army in check in the north.

The "blue devils," as the Germans call the French light infantry, operating in the Vosges, again justified the terror in which they are held by the enemy. They led the final rush which forced the last of the Germans out of French Lorraine. These troops hesitate at no sacrifice to gain an end.

The second battalion, emulating the first battalion, which took the first flag from the Germans, held the vantage ground gained despite great losses. This was the end for the time being the long effort against the unfortified town of Nancy, the defense of which has proved a great surprise to the Germans. In the absence of strong forts they found before them what is more effective in this war field, works. All through the foothills of the Vosges every thicket belched fire, every knoll was a fortress, every trench a death trap and the Germans left there the flower of the Imperial Guard.

Further west on the great front the Germans fought the French to a new kind of surprise. While an artillery duel raged the infantry a respite they drove towards the allies' lines horses around the neck of which hung placards announcing the defeat of the

Russians. The trenches are so close on this part of the front that orders may be heard across the intervening space and the soldiers relieve the tedium of their long watches by exchanging quips.

### This Cushion Gives You Extra Wear

That's one of the things you'll like about Dr. A. Reed Cushion Shoe. It's not only the easiest shoe you ever put your feet into, but it wears much longer than ordinary shoes. Gives you months of extra wear—simply because the soft cushion insole spreads your weight over the whole sole—spreads the wear over the whole sole, and takes up the jarring and the grinding that wear through a common leather shoe so quickly.

### Dr. A. Reed Cushion Shoe

J. P. Smith Shoe Co., Mfrs., Chicago.

Make it your business to come in tomorrow and see this shoe. There is nothing like it if you have to be on your feet much—for it does away entirely with tired, aching, burning feet—ends corns and bunions and keeps your feet normal and healthy. Makes walking easier—saves shoe-maker bills. Let us show you the many styles tomorrow.
